Application Directions	
For single patient use.	To minimize risk of cross-contamination.
Choose package size appropriate to incontinence episode (i.e., package of 8 for feces and package of 3 for urine).	To minimize waste.
To Apply	
<p>Use at room temperature or warm in Sage warmer. Only use microwave for warming if facility/unit policy allows.</p> <p>Sage warmer's display system switch, found on back of warmer, should be set to "C" only if CHG Antiseptic Body Cleanser wipes are in warmer. If no CHG Antiseptic Body Cleanser wipes in warmer, set display system switch to "B". The coloured lights indicate the heating status of the package adjacent to the light:</p> <ul style="list-style-type: none"> • Yellow light – package has not reached the target temperature. • Steady green light – package has reached target temperature. • Flashing green light – package has been at target temperature for 48 hours and should be used first. • Red light (only visible if display system switch is set to "C") – package has been at the target temperature for over 84 hours; CHG Antiseptic Body Cleanser wipes should be discarded and other wipes should be used first. <p>Once package has been removed from warmer and taken to client's bedside, do not put back in warmer for re-warming.</p> <p>Warming in microwave is not recommended. Only use microwave for warming if facility/unit policy allows.</p> <ul style="list-style-type: none"> • Peel open label and place in microwave. <ul style="list-style-type: none"> ○ Package of 8: heat no longer than 45 seconds ○ Package of 3: heat no longer than 18 seconds <p>Closely monitor heat level, especially with infants or unresponsive or skin-sensitive individuals. Do not use if excessively hot.</p>	<p>Warm cloths provide increased client comfort.</p> <p>All Sage products can be in the warmer with display system switch set to "C" as this does not impact temperature.</p> <p>Packages take approximately 2 hours to warm.</p> <div style="text-align: center; margin: 10px 0;">  </div> <p>All wipes except CHG Antiseptic Body Cleanser Cloths are safe to use after 84 hours at target temperature.</p> <p>To reduce the risk of cross-contamination between clients.</p> <p>Use caution when determining heat level as gloves diminish sensitivity to heat.</p>

Skin and Wound Product Information Sheet
