

Triaging Burns/Treatment Minor Burns: Burn Wounds Module 1

(Click on the title to access the module)

The key learning points in this 30-minute module are:

- The definition of burn injury vs burn wound.
- The initial assessment of the burn wound and when to triage the patient.
- The mechanism of injury, as well as, the extent and depth of the burn wound.
- The goals of treatment, management and special consideration of the minor burn wound.
- Resources for follow-up and patient teaching.

This module is for your personal development, you can review it as often as you wish.

If you need to have a record that you have completed this module, please access the module through your health authority/agency's Learning & Development site, as the CLWK site does not register completion of modules.
