

OSTOMY PATIENT PEER SUPPORT

**Are you worried about how you will live with an ostomy?
Would you like to speak with a volunteer who has had the same surgery as you?**

The United Ostomy Association of Vancouver has trained volunteers who provide peer support to adults (young & old) living with an ostomy who have questions, concerns, or who may be struggling emotionally. Support is provided to province-wide.

If you would like to connect with a peer support volunteer who understands your worries, call or email our Visitor Coordinator with your information (see below)

604-438-8341 or patsyp@telus.net
