

Pressure Injury Prevention (Braden Risk Scale & Interventions)

(Click on the title to access the module)

The key learning points of this 30-minute module are:

- What patient/client/resident risk factors are associated with the development of a pressure injury.
- How to perform a Braden Risk Assessment and document its score.
- How Braden sub-scales are used to focus interventions to mitigate the pressure injury risk.

This module is for your personal development, you can review it as often as you wish.

If you need to have a record that you have completed this module, please access the module through your health authority/agency's Learning & Development site, as the CLWK site does not register completion of modules.

Please note: pressure ulcer = pressure injury
